

## BUY EM & BREED EM - OPEN FEMALE SALE

If you are reading this the sale is OPEN & BUY NOW is the only option!

We appreciate the interest in this offering! It's pretty simple, after a solid year of working towards making our numbers more manageable and being diligent to focus on thinning numbers by first, getting rid of the ones that need to go, second offering the best we can to the public through multiple production sales, bred sale and private options, we have come very close to the numbers we feel we can manage. So many have been able to take advantage of these offerings. A few of the most recent examples are as follows:

Schram Livestock's private half interest \$50,000 purchase of In The Wood's mother as a bred who just had the Reserve Grand Barrow at the National Western 2024.

The Exchange Livestock Event's production sale purchase of an open gilt for \$5,000 that in her first litter produced BIG INDIAN, just introduced and standing here at BF.

Premium Blend's \$4100 online purchase of a mature open gilt that in her first litter made PHOTO FINISH standing at Premium Blend.

I say all that to say, we are CLOSE, but not quite there on our numbers and offering another opportunity to acquire a Brockman female in this BUY EM & BREED EM - OPEN FEMALE SALE. This group of females in this offering comes from genetic lines we have built on, some have had more litters and some very young, but all have been vaccinated and are fully ready to be bred. If you have any questions of our vaccination protocols, etc please reach out and we would be happy to discuss.
